## CLEARWATER SYSTEMS

*The Environmental Leader in Water-Treatment Technology*

### The Dolphin System™: A High-Performance, Chemical-Free Solution

There is now a more effective, more efficient, and more environmentally responsible way to treat the process waters of cooling towers, chiller systems, heat exchangers, and steam boilers. Clearwater's Dolphin System prevents the discharge of toxic chemicals into the environment, saves energy and water, and enhances the indoor-air quality of hundreds of the largest office complexes, hospitals, industrial parks, and other buildings throughout the nation.

#### ON COOLING TOWERS

- **Superior Performance.** Minimizes bacteria counts; eliminates biofilm, algae, and fungus; prevents scale buildup, extends the operational life of cooling tower systems.
- **Environmental Benefits.** Ends the regulatory, liability, and health concerns associated with chemicals. *Contributes to green building tax credits.*

#### ON STEAM BOILERS

- **Superior Performance.** Eliminates scale; maintains safe and reliable pH in boiler water, making boilers more efficient and longer-lasting.
- **Environmental Benefits.** Ends regulatory, liability, and health concerns with chemicals. Alleviates indoor-air quality impacts. Simplifies boiler room cleaning requirements. *Contributes to green building tax credits.*
- **Cost Savings.** Eliminates all chemical costs. Lowers energy costs. Creates significant savings in BTU value during water disposal.

- **Contact us** to learn more about how we can help you reduce energy, water & chemical costs while improving the environment at and around your facility. Conservation Solutions Corporation is an approved non-chemical water treatment vendor for the Commonwealth of Massachusetts.

Standard Electric Supply has been empowering business since 1952. At Standard Electric, we believe teamwork is the key to success. That's why we have created an Alliance to deliver energy efficiency and cost savings to our customers in these times of rising energy costs. Headquartered in Wilmington, Massachusetts, Standard Electric is teaming with its lamp and ballast partner, SYLVANIA, to deliver energy savings to customers throughout the Northeast. If your current system uses older technology such as Incandescent, T-12, T-12 High Output, 400 Watt HID lamps and magnetic ballast, you are a candidate for this program. SYLVANIA has developed several new technologies that improve the quality of light and greatly reduce energy consumption and system operating costs. In addition, by moving to low mercury, high efficiency products, your business can become ECOLOGIC Certified.
